
PRODUCT DATA SHEET

WILFRO RPWB

Introduction

Wilfro RPWB is synthetic based aqueous rust preventive that provides long-term protection on all metal surfaces. It dries to an imperceptible film and is environmentally safe.

Advantages

- Non-Foaming
- Safe to use, Easy to use
- Conditions Hard Water
- Superior Corrosion Protection
- Safe for all metals
- Provides clear, dry film, easy to apply and easy to remove in subsequent cleaning operations
- Displaces water from contact surfaces

Usage Recommendation

Mix with 100 litres of water 5-10% of Wilfro RPWB for short-term indoor rust protection.

Normally it gives protection up to 3 months.

For protection up to 6 months, use at 10-20%.

Wilfro RPWB film formed cannot provide long term protection when stored outdoors without additional protection such as packing in plastic or VCI.

The product is ideally suitable for indoor storage of components.
